[Dak Prescott \(QB - DAL\)](#)

Prescott has finished No. 6 and No. 9 in his first two seasons, which is an extremely impressive start to his career. Unfortunately, Prescott's receiving corps took a big hit with Jason Witten's retirement and Dez Bryant's release. The Cowboys are trying to replace Bryant with a combination of Allen Hurns and Michael Gallup, while they're planning to start Blake Jarwin at tight end. Prescott's numbers are likely to take a hit.

Scouting Report

Week 6 vs. Jacksonville Jaguars

Dak Prescott struggled at times against Houston on Sunday. He did complete 62% of his passes, but threw 2 INTs in the loss. Prescott has not thrown for a lot of yardage and only five touchdowns in five games.

It won't get any easier this week as Prescott faces the Jaguars defense who are 3rd in aFPA to quarterbacks. Jacksonville's defensive backs have been hard on opposing quarterbacks so expectations are low for Prescott. Keep him on the bench for Week 6. He has been a player who has not even ranked QB2 most weeks.
